Bill of Lading

A Bill of Lading (BOL) is required to ship freight and plays a crucial role in making sure your shipment is transported quickly and efficiently. If you have a guaranteed or volume/tracked shipment, be sure to indicate your service level and include your quote number on your printed BOL. And, don't forget you can save some time by requesting your pickup within our Bill of Lading application. Another convenient feature allows you to save your work as a draft or template if you get partially done with your BOL and need to come back later.
